Secretary's Office, 125-135 Church St., New York City

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.

HOW DIRECTORY LIBRARIES ARE USED

He Wanted to Buy a Home

"Who sells ready-cut houses?" said a man to us the other day. "There is nobody listed under that heading in the Detroit City Directory, but I know there is some concern out in the State which sells them."

Reference to the Michigan State Gazetteer (State Business Directory) soon told him that the concern he wished was the North American Construction Company, of Bay City, Mich. "I will write and order what I want at once." was his parting remark.

Where one instance of this sort comes to our attention, the same things are happening over and over again wherever a City Directory is to be found.

If you will trace back new customers to find out how they found you, City Directory classified lists will receive their share of the credit.

A $50,000.00 Order

A traveling man from St. Louis called on a wholesale dry goods house in St. Paul, to sell salvage goods. They did not deal in that class of goods.

Later the firm dissolved. One partner decided to engage in that line of trade and wanted to buy a complete stock, amounting to about $50,000.00.

He called at our office and examined the St. Louis Directory to find the name of the house the agent represented. The classification "Salvage Goods" did not show it.

We, being more familiar with the classifications in a Directory, found it under "Bankrupt Stocks," much to the delight of the jobber, and a tremendous order was placed with the salvage house.

The classified section of the City Directory is the greatest buyers' guide on earth. Any one classification may secure the largest order and the best customer, any or every day in the year, and its omission may lose a large order at any time.

Every day, all over the country, thousands of people are consulting Polk's Directory Libraries. We offer you the free use of our directories for single reference.

Many Directories of various cities are bought by progressive concerns, who desire up-to-date mailing lists, classified by trades and otherwise.

Ask for a free copy of our "Directory of Directories," or for our "List of Mailing Lists."
